SHORT BIO

I am a professor and the director of the Center for Innovation and Research in Computing (CIRC) at the School of Computing, Southern Adventist University, USA.

I hold a Ph.D. in Computer Science (Summa Cum Laude) from Universitat Politècnica de València (Spain), a MSc in Information and Communication Technology from Assumption University (Thailand), and a BSc in Computer Science Engineering from Universidad EAFIT (Colombia). Also, I did a postdoc at the Geoscience Research Institute, in collaboration with Loma Linda University (USA). I am certified in data science and big data analysis by the Massachusetts Institute of Technology (MIT), USA, in statistical analysis by the University of Canterbury, NZ, and in Geographic Information Systems (GIS) by the University of Alaska Fairbanks, USA.

My research interests include Services Computing, Model-Driven Engineering, Models at Runtime, Autonomic Computing, Data Science, Big Data, and Dynamic Software Product Lines. I have contributed to publications in top journals, book chapters, and international conferences (Scopus h-index: 9). I have worked in universities, IT companies, and research groups of four continents (America, Asia, Australia, and Europe).

My research contributions have been recognized by the National Council of Science and Technology (CONACYT), Government of Mexico by awarding me a distinction in the National System of Researchers (SNI) during 2018-23. Also, I am a research fellow of Peru's National Council for Science, Technology and Technological Innovation (CONCYTEC) during 2016-21.

RESEARCH INTERESTS

Artificial Intelligence, Autonomic Computing, Big Data, Computer Vision, Data Science, Dynamic Software Product Lines, Machine Learning, Model-Driven Software Development, Natural Language Processing, Service-Oriented Architectures, and Software Product Lines

ACADEMIC INFORMATION

Ph.D. in Computer Science

December 2013

- **University:** Universitat Politècnica de València, Spain
- **Thesis Title:** Achieving Autonomic Web Service Compositions with Models at Runtime (<http://hdl.handle.net/10251/34672>)
- **Degree of Praise:** Summa Cum Laude. Chosen as one of the best theses in 2013-2014 at Universitat Politècnica de València (<http://www.upv.es/entidades/EDOCTORADO/info/904322normalc.html>)

Master of Science in Information and Communication Technology

January 2008

- **University:** Assumption University, Thailand
- **Specialty:** Technology Management
- **Thesis Title:** Aspect-Oriented Driven Variability in Software Product Lines (<https://www.dropbox.com/s/alem0tcwptp0v2x/ThesisHarveyAlferez.pdf>)
- **GPA:** 4.0/4.0. President's Award for Academic Excellence

Bachelor of Science in Computer Science Engineering

December 2004

- **University:** Universidad EAFIT, Colombia
- **Specialty:** Software Engineering and Databases
- **Senior Project Title:** Análisis de un Sistema de Información Bajo la Aproximación de la Orientación a Aspectos. Caso Práctico: Manejo de Solicitudes en la Mesa de Ayuda de Servicios Generales de una Universidad (<https://research.ebsco.com/c/7pr3vo/search/results?q=005.12%20CD%20A386>)

WORK EXPERIENCE

Professor & Director of the Center for Innovation and Research in Computing (CIRC), School of Computing, Southern Adventist University, USA

January 2022 – Present

- **Duties and Responsibilities:**

Teach the following courses at the School of Computing:

- **Undergraduate:** Artificial Intelligence, Senior Seminar, Senior Project, and Southern Connections
- **Master of Science in Computer Science/ Master of Science in Applied Computer Science:** Advanced Database Systems, Programming in Data Analytics, Databases and Data Warehouses, Data Mining and Analytics, Data Visualization, Project, and Thesis

As the director of Center for Innovation and Research and Computing (CIRC), I lead projects developed with students at the School of Computing (<https://www.southern.edu/academics/computing/circ.html>). Specifically, CIRC offers a scenario in which students work on research and development projects to benefit the church, the industry, and the university. By paying students to work on these projects, CIRC provides students with the opportunity to fund their education through on-campus, computing-related work (similar in nature to computing internships)

Director, Institute of Data Science, School of Engineering and Technology, Universidad de Montemorelos, Mexico – <http://icd.um.edu.mx>

September 2018 – December 2021

- **Duties and Responsibilities:** Led international research and industrial projects in data science and big data
- **Accomplishments:** I led a team of four engineers. We are developing several internal and external projects related to data science and big data (<http://icd.um.edu.mx>). The external projects are being developed for organizations in the USA

Postdoctoral Fellow, Geoscience Research Institute in collaboration with Loma Linda University, USA

July 2020 – June 2021

- **Duties and Responsibilities:** I worked on the project entitled “Data Science Applied to Geochemical Data within a Seventh-day Adventist Paradigm” under the supervision of Dr. Benjamin L. Clausen and sponsored by the Faith and Science Council of the General Conference of Seventh-day Adventists
- **Accomplishments:** I worked with a team of students in computer science engineering at Universidad de Montemorelos in two areas: automatic identification of plutonic rock images and analysis of geochemical big data. Software tools were created and scholarly publications were published during my postdoctoral studies

Director (Founder), Global Software Lab, School of Engineering and Technology, Universidad de Montemorelos, Mexico

August 2014 – December 2021

- **Duties and Responsibilities:** Led international software-engineering research and development projects to solve current problems in industry, and society

- **Accomplishments:** Founder of this lab. Several software-related research and development projects have been carried out

Professor, School of Engineering and Technology, Universidad de Montemorelos, Mexico

January 2014 – December 2021

Courses Taught:

- **Undergraduate:** Software Engineering, Artificial Intelligence, Artificial Neural Networks, Natural Language Processing, Pattern Recognition, Computer Vision, English for Engineers, and Introduction to Research
- **Master of Science in Computer Science:** Software Engineering, Object Oriented Programming, Software Development Methodologies, and Research Project

Sessional Lecturer, Graduate School of Engineering and Architecture, Peruvian Union University, Peru

January 2019 – May 2019

Taught a Ph.D. in Computer Science course on Big Data

Sessional Lecturer, Department of Computer Science, Faculty of Arts & Sciences, Middle East University, Lebanon

January 2019 – May 2019

Taught a M.Sc. in Computer Science course on Artificial Intelligence and Neural Computation

Researcher, Research Center on Software Production Methods, Universitat Politècnica de València, Spain

October 2010 – December 2013

- **Duties and Responsibilities:** Ph.D. thesis work at this international research center
- **Accomplishments:** Several top international scientific publications. I led a joint project with Prof. Camille Salinesi and his team at Université Paris 1 Panthéon-Sorbonne. Our results were presented in the Journal of Systems and Software

Director, Center for Research and Technology Development, School of Engineering and Technology, Universidad de Montemorelos, Mexico

August 2008 – September 2010

- **Duties and Responsibilities:** Coordinated lecturers and students in projects with several important institutions such as NASA
- **Accomplishments:** Exponential growth of scientific publications and research projects

Lecturer, School of Engineering and Technology, Universidad de Montemorelos, Mexico

January 2008 – September 2010

Courses Taught:

- **Undergraduate:** Emergent Technologies, Object Oriented Programming, Software Engineering, Systems Analysis and Design, and Visual Programming
- **Master of Science in Computer Science:** Object Oriented Methodologies, Software Architectures, Software Engineering, Software Development Methodologies, and Object-Oriented Programming

Coordinator, Computer Information Systems Department, Faculty of Business Administration, Asia-Pacific International University (Formerly Mission College), Thailand

August 2007 – December 2007

- **Duties and Responsibilities:** Monitored program quality and integrity. Managed the assessment process (curriculum, advising, placement, cooperative education, and internships). Recruited and supervised associate faculty
- **Accomplishments:** Created the IT Evangelistic Team. In this team a group of students developed IT solutions to support education in Southeast Asia

Sessional Lecturer, School of Education, Avondale College, Australia

July 2006 – April 2007

Master of Education (Extension in Asia-Pacific International University): Sessional academic employment to support IT-related research projects

Lecturer, Computer Information Systems Department, Faculty of Business Administration, Asia-Pacific International University, Thailand

June 2005 – December 2007

Courses Taught: Essentials of Computer Programming, Network and Data Communications, Web-Based Application Development, Visual Basic Programming, Systems Analysis and Design, and Computer Business Applications

Systems Analyst and Web Manager, Information Technology Systems Department, Asia-Pacific International University, Thailand

June 2005 – July 2007

- **Duties and Responsibilities:** Analyzed, developed, and improved software. Developed the website and the intranet of this university
- **Accomplishments:** Developed The Dorado Project, a multi-layered Web application that integrates several departments

Systems Analyst, UNE (Formerly Orbitel S.A. E.S.P), Colombia

July 2003 – December 2003

- **Duties and Responsibilities:** Managed the development cycle of a system for the quality and productivity of the company's processes using the Rational Unified Process (RUP) and the Capability Maturity Model (CMM)
- **Accomplishments:** Pioneer using Visual Studio .NET and MySQL in this international company. The financial benefits of the developed system were presented to the president and vice-presidents of this company

Researcher, Software Engineering Research Group, EAFIT University, Colombia

February 2001 – June 2001; January 2003 – May 2003

Duties and Responsibilities: Developed and maintained several software tools

CERTIFICATION, DISTINCTIONS AND PROFESSIONAL AFFILIATION

- I hold a Professional Certificate in Geographic Information Systems (GIS) Essentials by the University of Alaska Fairbanks. July 2022 (<https://credentials.edx.org/credentials/fb5a6c1f315d4310add51eebee74737e/>). This certificate is composed of three courses: GIS Foundations (<https://courses.edx.org/certificates/a86beab260124de39b4dfd56d1045466>), 3D GIS (<https://courses.edx.org/certificates/b1c529f1c73b4e97bad2fe5bede1283e>), and GIS Image Analysis in ArcGIS Pro (<https://courses.edx.org/certificates/a066c4778cd6449f9f1a51a25bef01a9>)

- I hold a Professional Certificate in Statistical Modeling Using R by the University of Canterbury, NZ. September 2021 (<https://credentials.edx.org/credentials/5dab3a38ef9e43bbb97bb15b0ea11760/>). This certificate is composed of two courses: Basics of statistical inference and modeling using R (<https://courses.edx.org/certificates/14bee5b5fbf843d9966cef1c9ecef805>) and Advanced Statistical Inference and Modeling Using R (<https://courses.edx.org/certificates/870d499c478b41aa859c26ebb3b047ae>)
- I hold a Certificate in Data Science and Big Data Analytics: Making Data-Driven Decisions by the Massachusetts Institute of Technology (MIT), USA. October 29th, 2018 (<https://mitxpro.mit.edu/certificates/4bd210437eab48209491be3f1042db79>)
- My research contributions have been recognized by the National Council of Science and Technology (CONACYT), Government of Mexico by awarding me a distinction in the National System of Researchers (SNI). 2018-23
- Research fellow of Peru's National Council for Science, Technology and Technological Innovation (CONCYTEC), 2016-21
- Member of Advancing Earth and Space Sciences (AGU). 2023
- Member of the Geological Society of America. 2021
- Member of the IEEE Monterrey Section. Member of the IEEE Computer Society. 2017

SOFTWARE KNOWLEDGE

- **Languages:** Java, .NET (Visual Basic and C#), C, C++, JavaScript, SQL, and PL/SQL
- **Data Science and Artificial Intelligence:** Python, R, Weka, TensorFlow, Scikit-Learn, NLTK, SpaCy, and Alteryx
- **Data Visualization:** Tableau, Shiny, Dash, and Streamlit
- **Big Data:** Apache Spark, Apache Kafka, MongoDB, and Apache Cassandra
- **Mathematical and Statistical Analysis:** Jamovi, PSPP, Statgraphics, WinQSB, and LAPACK
- **Geographic Information Systems (GIS):** ArcGIS Pro
- **DBMS:** Oracle, Oracle Forms, SQL Server, MySQL, PostgreSQL, and MS Access
- **Web Site Design:** Dreamweaver
- **UML Modeling:** Rational Rose, Visual Paradigm, and Enterprise Architect
- **Application Servers:** IIS, Apache Tomcat, and Flask
- **Development of Web Services and Web Service Compositions:** Apache Axis2, Apache CXF, and Apache ODE (WS-BPEL)
- **Business Process Management:** Activiti (BPMN2) and Babel
- **Models at Runtime:** EMF and Jena
- **Others:** OSGi, AspectJ, OpenCV, Eclipse, NetBeans, XML, and several free and open-source applications

RELEVANT PROJECTS

- Leader of several research and development projects at the Center for Innovation and Research in Computing (CIRC), Southern Adventist University. 2022-present.
- Post-doctoral Research on Data Science Applied to Geochemical Data within a Seventh-day Adventist Paradigm, sponsored by the Faith and Science Council of the Seventh-day Adventist Church (\$36,100 USD). 2020-2021. Contact: Dr. Benjamin L. Clausen (bclausen@llu.edu).
- Project leader in several intensive data science projects in Montemorelos University. 2015-2019. Contact: Alejandro García (awgarcia@um.edu.mx).
- Project leader in a data strategy project for the North American Division of the Seventh-day Adventist Church. I proposed a prototype of a platform to build and manage the strategic plan of the Division at different levels. July 2018. Contact: Elder Alvin Kibble (AlvinKibble@nadadventist.org).
- Project leader in a data science project for the North American Division of the Seventh-day Adventist Church. May-June, 2017. Contact: Elder Alvin Kibble (AlvinKibble@nadadventist.org).
- Researcher in the SMART ADAPT Project (TIN2013-42981-P, Ministry of Economy and Competitiveness, Spain): Adaptive Software Development in an Intelligent World. Technological Challenges in Model Driven Engineering. 2015-2017. Contact: Dr. Vicente Pelechano (pele@dsic.upv.es).

- Researcher in the EVERYWARE project (TIN2010-18011, Ministry of Science and Innovation, Spain): Building Adaptive Software for Integrating People, Services and Things using Models at Runtime. 2011-2013. Contact: Dr. Vicente Pelechano (pele@dsic.upv.es).

REVIEWER

- **Peer reviewer for grants calls**
 - UK Natural Environment Research Council (NERC) Standard grants call, 2020.
 - Mexican National Council of Science and Technology (CONACYT) grants call, 2018.
- **Peer reviewer for journals**
 - Journal of Digital Imaging, Springer.
 - Machine Vision and Applications, Springer.
 - Journal of Cereal Science, Elsevier.
